Other PSET Group Long Term Disability features

Guaranteed Issue

No evidence of insurability is needed up to the stated amount; higher benefits may require it.

Own Occupation Period For Other Employees

The plan includes a 24-month Own Occupation period followed by an Any Occupation period, with other options available.

Definition of Partial/Residual Disability

During the benefit waiting and own occupation periods, you are partially disabled if you work in your own occupation but earn less than 80% of your Indexed Pre-disability Earnings due to physical or mental conditions.

Return to Work Incentive

During the first 12 months after returning to work, the LTD benefit is reduced only by earnings exceeding 100% of pre-disability income, after which the PSET Plan deducts half of work earnings, typically resulting in higher total income for those who return to work.

Reasonable Accommodation Benefit

The PSET Plan includes a Reasonable Accommodation Expense Benefit that reimburses employers up to \$25,000 for approved worksite modifications to help disabled employees return to work.

Indexing of Pre-disability Earnings

After one year of disability, indexed pre-disability earnings are adjusted annually by up to 10% based on the prior year's CPI-W increase, without any decrease if the CPI-W drops.

Survivor Benefit

The PSET LTD Plan will pay a survivor a lump sum equal to three times the insured's monthly LTD benefit.

Conversion Privilege

The Conversion of Insurance provision allows eligible members to obtain LTD conversion insurance after employment termination, maintaining up to a \$4,000 monthly benefit without proof of insurability, or up to \$8,000 with approved evidence, subject to exclusions and limitations.

Temporary Recovery

The PSET Plan includes a Temporary Recovery provision, allowing employees who recover and become disabled again from the same cause within the allowable period to avoid serving a new benefit waiting period.
